Lorem Ipsum is simply dummy text of the printing and typesetting industry. Lorem Ipsum has been the industry's standard dummy text ever since the 1500s, when an unknown printer took a galley of type and scrambled it to make a type specimen book. It has survived not only five centuries, but also the leap into electronic typesetting, remaining essentially unchanged. It was popularised in the 1960s with the release of Letraset sheets containing Lorem Ipsum passages, and more recently with desktop publishing software like Aldus PageMaker including versions of Lorem Ipsum.

The **Insert files using Google Drive** window appears. Select the files you want to attach. At the bottom of the page, decide how you want to send the file.

- **Drive link** works for any files stored in Drive, including files created using Google Docs, Sheets, Slides, or Forms.
- **Attachment** only works for files that weren't built using Docs, Sheets, or Slides.

Then click **Insert**.

Gmail checks to see if your recipients have access to the file. If they don't, it'll prompt you to [change the sharing settings of your file stored in Drive](#) before sending the message. You can set permissions to prevent the file from getting misused and send them to selected recipients.
